"From the editors of Old cars weekly"---Cover.

A history of all four generations of compact Jaguar, and their Daimler equivalents, tracing the gradual development of Sir William Lyons' original idea over a period between 1955 and 1969. From the powerful, luxury MK 1 and 2 cars to the 4.2-litre 420, this book covers design, development and styling; special-bodied variants; racing performance; buying and owning a compact Jaguar saloon model and, finally, specifications and production figures. This history of all four generations of compact Jaguar and their Daimler equivalents manufactured between 1955 to 1969 will be of great interest to all motoring and Jaguar enthusiasts. Topics covered include buying and owning a Jaguar saloon model; design, development and styling; the cars' competition successes and rare special-bodied models. Superbly illustrated with 208 colour photographs.

Most renewable energy systems aren't new, but their use is. This handbook shows how each of the main renewable energy technologies works, along with step-by-step details of how it's installed, as well as the pros and – at least as importantly – the cons of each type of installation.

This totally revised, updated and enlarged book is THE complete guide to building a fast MG Midget or Austin-Healey Sprite for road or track. Daniel has been continuously developing his own 'Spridget' for years, and really does know what works and what doesn't when it comes to building a fast Midget or Sprite. Best of all, this book covers every aspect of the car, from the tyre contact patch to the rollover bar, and from radiator back to exhaust tailpipe. This new edition contains updated information for parts and suppliers, many new photos, and features new material covering aerodynamics, including results from testing the effect of modifications at the MIRA wind tunnel. With over 400 mainly colour photos and exclusive tuning advice, this is a MUST for any Sprite or Midget owner.

This significantly enhanced Fourth Edition of Jaguar – All the cars, brings the Jaguar model story right up-to-date. The only publication available covering the entire range in precise detail, with a revised engine chapter, updated chapters on existing models, and new chapters on the very latest Jaguar models.

Veloce Classic Reprint of the only book dedicated to the Type 46 & 50 Bugattis. The book features over 200 period plates, many rare and previously unpublished, showing a galaxy of superb coachbuilt and standard bodies on T46 and T50 chassis as well as much mechanical detail.

Here is a fact and picture-packed book dedicated solely to the Giulia GT in all its forms including the fabulous lightweight GTA racer. Now an updated, large format third edition which includes over 100 new images and which is limited to 1500 copies.

Nigel Bennett's unique autobiography describes his life and career, from growing-up influenced by car design, to his education and the building of his 750 specials. He describes his work as Firestone Development Manager, recounting many tales of the outstanding designers and drivers of the period. Detailing his work in Formula 1, as a Team Lotus engineer, and then as Team Ensign designer, he also covers his IndyCar designs at Theodore, Lola Cars and Penske Cars. Life after his retirement, his involvement in boat design and with modern F1 teams, are also recounted.

Researched in incredible detail, this book explores the story of the timeless VW bus, from early origins through to the present day. This entirely new edition includes details of many of the different camper conversions, and examines the social history and the T2's evolution. Including full specifications, production figures and buying advice, this is a must for any VW enthusiast.

The overhead camshaft single provided the DNA for Ducati motorcycles, but, with little accurate documentation and information available until now, they can be difficult to restore and authenticate. This is the first book to provide an authoritative description of the complete range of Ducati OHC singles.
