Farm Animal Anesthesia: Cattle, Small Ruminants, Camelids, and Pigs presents practical guidance on using anesthetic and analgesic drugs to prevent pain caused by surgery or disease. This cohesive resource offers complete coverage of anesthetics and anesthetic techniques in farm animals with a focus on practical applications. Providing thorough information on pain management and residues, the book also covers specific techniques for common surgical procedures and considerations for animals with pathophysiological conditions. The book includes chapters on preanesthetic considerations, anesthetic drugs, chemical restraint and standing sedation, injectable anesthesia, inhalant anesthesia, local techniques, specific procedures, pain management, residues, and euthanasia. Farm Animal Anesthesia is a useful guide for farm animal practitioners, veterinary students, and researchers working with these species.

This book provides both evidence-based scientific studies and practical guidance to enhance the welfare of cattle, pigs, sheep and poultry at slaughter. Temple Grandin and Michael Cockram have brought together a range of international experts to prepare chapters on philosophical and ethical views on the slaughter of farmed animals. These include welfare issues and their assessment, the condition of animals on arrival and their management during lairage, animal handling, methods of humane slaughter and assessment of unconsciousness. The book boldly tackles controversial issues around the compromises necessary when balancing animal welfare concerns with commercial realities, as well as religious slaughter. Chapters cover methods of stunning, pre-slaughter handling, equipment design, monitoring welfare with abattoir data and auditing methods. It is an important publication for those involved in implementing improvements in the humane slaughter of farmed animals and is recommended for veterinarians, students, abattoir managers and government regulators.

This book focuses on the impact of technology on taxation and deals with the broad effect of technology on diverse taxation systems. It addresses the highly relevant eTax issue and argues that while VAT may not be the ultimate solution with regard to taxing electronic

commerce, it can be demonstrated to be the most effective solution to date. The book analyzes the application and the effectiveness of traditional income tax principles in contradistinction to VAT principles. Taking into account rapidly ameliorating technology, the book next assesses the compatibility between electronic commerce and diverse systems of taxation. Using case studies of Amazon.com and Second Life as well as additional practical examples, the book demonstrates the effectiveness of VAT in respect of electronic commerce and ameliorating technology in the incalculable and borderless realm of cyberspace.

In November 2010, three hundred faculty, students, and others interested in Christian mission gathered in Boston to consider how the world, the global church, and Christian missions have changed since the World Missionary Conference in Edinburgh in 1910 and to reflect on the three previous centennial conferences (Tokyo 2010 in May, Edinburgh 2010 in June, and Cape Town 2010 in October). Participants at "2010Boston" were not delegates from churches and mission agencies, but were students and scholars of various aspects of world Christianity representing the Anglican/Episcopal, Evangelical, mainline Protestant, Orthodox, and Roman Catholic traditions. This conference volume consists of nine keynote messages, five student presentations, three reports from the other conferences, and additional materials from or about 2010Boston. The keynote messages address the history of mission (especially in and from Boston) and the current global context for mission, and suggest modes for future Christian engagement with the world and one another. Student papers address such conference themes as unity in mission, mission and postcolonialism, and discipleship in context. The closing chapter surveys the conference's eight themes and summarizes the outcomes of the 2010Boston process.
