A song educating the masses about dynamite T.N.T. marked a change in direction from AC/DC's debut album, High Voltage, released in February 1975. Whereas High Voltage featured more of a glam rock-influenced sound, T.N.T. saw the band fully embrace the formula for which they would become famous: hard-edged, rhythm & blues-based rock 'n' roll. This album contains some of the band's best-known songs, including the title track, "It's a Long Way to the Top (If You Wanna Rock 'n' Roll)", "The Jack

T.N.T. stands for Trinitrotoluene, an explosive compound. It was popularized in Road Runner cartoons when the Coyote would buy explosive items (from Acme) labeled "T.N.T." in an attempt to blow up the Road Runner. To this date, the coyote has not been able to harm the Road Runner in any way, and has done much more damage to himself through careless use of Acme products.

Bon Scott was AC/DC. Not to say AC/DC died with him, but from '74-'80, he was the man. The singlet-wearing, mullet-sporting Scotsman is as compelling a front-man as there's just about ever been. And his attitude sets the tone for, and is arguably the focal point of, T.N.T..
