Building on the innovative work of Unformulated Experience, Donnel B. Stern continues his exploration of the creation of meaning in clinical psychoanalysis with Partners in Thought. The chapters in this fascinating book are undergirded by the concept that the meanings which arise from unformulated experience are catalyzed by the states of relatedness in which the meanings emerge. In hermeneutic terms, what takes place in the consulting room is a particular kind of conversation, one in which patient and analyst serve as one another's partner in thought, an emotionally responsive witness to the other's experience. Enactment, which Stern theorizes as the interpersonalization of dissociation, interrupts this crucial kind of exchange, and the eventual breach of enactments frees analyst and patient to resume it. Later chapters compare his views to the ideas of others, considering mentalization theory and the work of the Boston Change Process Study Group. Approaching the link between dissociation and enactment via hermeneutics, metaphor, and narrative, among other perspectives, Stern weaves an experience-near theory of psychoanalytic relatedness that illuminates dilemmas clinicians find themselves in every day. Full of clinical illustrations showing how Stern works with dissociation and enactment, Partners in Thought is destined to take its place beside Unformulated Experience as a major contribution to the psychoanalytic literature.

You know what happens when bad boys get what they wish for? Everything. . . New York Times Bestselling Author Lori Foster Playing Doctor Attitude makes a huge difference in bed. It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her. . .admitted virginity. Whoa. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer. She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy The Lady of the Lake Pro baseball player Dylan Diaz is pretty sure he's going to hell. When you rescue a drowning woman from a lake your first thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

Very little has been written on industrialization and deindustrialization in Asia and Africa. This reference work sheds illuminating light upon the industrial development in Asia and Africa. It also provides an in-depth look into China's engagement and migrant labour in Africa. The book also addresses the roles of public-private partnership (PPP) and international development cooperation and how they are fundamental to industrialization in Asia and Africa. Designing Integrated Industrial Policies will be a very useful reference particularly as a how-to guide on industrial promotion and designing integrated industrial policies not only for economic growth and job creation but also for "inclusive" development. It comes with country cases and illustrates useful tools for industrial policy simulation and for evidence-based policy making through these concrete examples.
