Sex is sort of losing its appeal. Death is sexier these days, at least that's the impression I get from Ann Coulter, who makes a living calling for the "killing of Liberals" and repressing the free ...

Death Is Sexier Than Sex (to Ann Coulter)

Millions of doses wound up trapped in logistical limbo, either set aside for nursing homes that did not need them or stockpiled while Americans clamored in vain for their first doses. Now a ...

Deem Doom Redeeming Moral Limbo

This book is open access and available on www.bloomsburycollections.com. It is funded by Knowledge Unlatched. Philosophy in a Meaningless Life provides an account of the nature of philosophy which is rooted in the question of the meaning of life. It makes a powerful and vivid case for believing that this question is neither obscure nor obsolete, but reflects a quintessentially human concern to which other traditional philosophical problems can be readily related; allowing them to be reconnected with natural interest, and providing a diagnosis of the typical lines of opposition across philosophy's debates. James Tartaglia looks at the various ways philosophers have tried to avoid the conclusion that life is meaningless, and in the process have distanced philosophy from the concept of transcendence. Rejecting all of this, Tartaglia embraces nihilism ('we are here with nothing to do'), and uses transcendence both to provide a new solution to the problem of consciousness, and to explain away perplexities about time and universals. He concludes that with more self-awareness, philosophy can attain higher status within a culture increasingly in need of it.

It was the war that changed everything, and yet it 's been mostly forgotten: in 1935, Italy invaded Ethiopia. It dominated newspaper headlines and newsreels. It inspired mass marches in Harlem, a play on Broadway, and independence movements in Africa. As the British Navy sailed into the Mediterranean for a white-knuckle showdown with Italian ships, riots broke out in major cities all over the United States. Italian planes dropped poison gas on Ethiopian troops, bombed Red Cross hospitals, and committed atrocities that were never deemed worthy of a war crimes tribunal. But unlike the many other depressing tales of Africa that crowd book shelves, this is a gripping thriller, a rousing tale of real-life heroism in which the Ethiopians come back from near destruction and win. Tunnelling through archive records, tracking down survivors still alive today, and uncovering never-before-seen photos, Jeff Pearce recreates a remarkable era and reveals astonishing new findings. He shows how the British Foreign Office abandoned the Ethiopians to their fate, while Franklin Roosevelt had an ambitious peace plan that could have changed the course of world history—had Chamberlain not blocked him with his policy on Ethiopia. And Pearce shows how modern propaganda techniques, the post-war African world, and modern peace movements all were influenced by this crucial conflict—a war in Africa that truly changed the world. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Deem Doom Redeeming Moral Limbo

Deem Doom Redeeming Moral Limbo

When Betty Friedan produced The Feminine Mystique in 1963, she could not have realized how the discovery and debate of her contemporaries' general malaise would shake up society. Victims of a false belief system, these women were following strict social convention by loyally conforming to the pretty image of the magazines, and found themselves forced to seek meaning in their lives only through a family and a home. Friedan's controversial book about these women - and every woman - would ultimately set Second Wave feminism in motion and begin the battle for equality. This groundbreaking and life-changing work remains just as powerful, important and true as it was forty-five years ago, and is essential reading both as a historical document and as a study of women living in a man's world. 'One of the most influential nonfiction books of the twentieth century.' New York Times 'Feminism ..... began with the work of a single person: Friedan.' Nicholas Lemann With a new Introduction by Lionel Shriver

Deem Doom Redeeming Moral Limbo

The classic manifesto of the liberated woman, this book explores every facet of a woman's life.

The international hit returns with even more wit and insight into the hidden rules that make England English.

Thirty years after its publication, The Death and Life of Great American Cities was described by The New York Times as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the bitinglly satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.
