Ancient history is manifest in the modern city of Athens, which is still loomed over by the hilltop remains of the ancient Acropolis. For all its later fame, the beginnings of the city are shrouded in mystery. By 600 BC, when the historical record opens, it was clear that the city ruled the small hinterland of the peninsula of Attica.

The Siq is magical for more than just its end destination at the ancient city, for it was not carved by water but instead rent apart by tectonic forces. At some points, the Siq narrows to under two metres wide, where the light almost seems to disappear overhead; at another, you ' ll see a small, square tomb and a lone fig tree, or carvings of camels and caravan men.

Ancient Cities surveys the cities of the Ancient Near East, Egypt, and the Greek and Roman worlds from the perspectives of archaeology and architectural history, bringing to life the physical world of ancient city dwellers by concentrating on evidence recovered from archaeological excavations. Urban form is the focus: the physical appearance and overall plans of the cities, their architecture and natural topography, and the cultural and historical contexts in which they flourished.
