Scoring is done by a multi-disciplinary team member. The subject is scored on what they actually do on a day-to-day basis, not on what they could do. Do not leave any score blank. Score 1 if the subject does not perform the activity at all, or if no information is available. If function is variable, use the lower score.

~~Functional Independence Measure —JC Physiotherapy~~

The Functional Independence Measure (FIM) is an 18-item global measure of disability. Each item is scored on 7 ordinal levels. The FIM can be used for measuring disability in a wide range of conditions. The Functional Assessment Measure does not stand alone but adds 12 FAM items to the FIM, specifically addressing cognitive and psychosocial function,

What is Film Scoring? Simply put, film scoring is the art and craft of writing music in sync to visuals. This means writing music not just for "films" in the context of feature length movies or short films, but also TV shows, commercials, industrial/corporate videos, and any other medium you can think of where music serves a supporting role to a visual element.
