The Milan hails from the same model year as the Fusion, but is optioned much differently. One similarity their share is the clouded headlights. I have no idea how people drive their cars at night with such an impediment. Anyway, out of the trio of Fusion, Milan, and MKZ, I actually think the Mercury is the most European looking one of the bunch.

When General Motors and Chrysler declared bankruptcy in 2009 and immediately targeted thousands of dealerships for closure, tens of thousands of jobs and billions of dollars were on the line. Staring down two of the largest manufacturers in the world - as well as President Obama's Automotive Task Force - a determined triumvirate of car dealers banded together and went to Washington, D.C. to make their voices heard. Alan and Alison Spitzer's fast-paced memoir takes readers behind the scenes as "citizen's lobbyists" traverse throughout all of the major corridors of power in the nation's capital to make their case and bring justice to thousands of small business across the country.

This compendium of everything thats new in cars and trucks is packed with feedback from Canadian drivers, insider tips, internal service bulletins, and confidential memos to help the consumer select whats safe, reliable, and fuel-frugal.

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation)Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway)Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive EngineersGM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade agoYou can save \$2,000 by cutting freight fees and "administrative" charges)Diesel annual urea fill-up scams cancost you \$300, including an \$80 "handling" charge for \$25 worth of urea)Emon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki
