Hamlet and the Baker's Son is the autobiography of Augusto Boal, inventor of the internationally renowned Forum Theatre system, and 'Theatre of the Oppressed' and author of Games for Actors and Non-Actors and Legislative Theatre. Continuing to travel the world giving workshops and inspiration to teachers, prisoners, actors and care-workers, Augusto Boal is a visionary as well as a product of his times - the Brazil of military dictatorship and artistic and social repression and was once imprisoned for his subversive activities. From his early days in Brazil's political theatre movement to his recent experiments with theatre as a democratic

Games Real Actors Play provides a persuasive argument for the use of basic concepts of game theory in understanding public policy conflicts. Fritz Scharpf criticizes public choice theory as too narrow in its examination of actor motives and discursive democracy as too blind to the institutional incentives of political parties. With the nonspecialist in mind, the author presents a coherent actor-centered model of institutional rational choice that integrates a wide variety of theoretical contributions, such as game theory, negotiation theory, transaction cost economics, international relations, and democratic theory. Games Real Actors Play offers a framework for linking positive theory to the normative issues that necessarily arise in
