THE FIRST BOOK WITH ONE FOOT ON THE COFFEE TABLE, AND ONE FOOT IN THE CLASSROOM Joe McNally, one of the world's top pro digital photographers, whose celebrated work has graced the pages of Sports Illustrated, Time, and National Geographic (to name a few), breaks new ground by doing something no photography book has ever done—blending the rich, stunning images and elegant layout of a coffee-table book with the invaluable training, no-nonsense insights, and photography secrets usually found only in those rare, best-of-breed educational books. When Joe's not on assignment for the biggest-name magazines and Fortune 500 clients, he's in the classroom teaching location lighting, environmental portraiture, and how to "get the shot" at workshops around the world. These on-location workshops are usually reserved for a handful of photographers each year, but now you can learn the same techniques that Joe shares in his seminars and lectures in a book that brings Joe's sessions to life. What makes the book so unique is the "triangle of learning" where (1) Joe distills the concept down to one brief sentence. It usually starts with something like, "An editor at National Geographic once told me..." and then he shares one of those hard-earned tricks of the trade that you only get from spending a lifetime behind the lens. Then, (2) on the facing page is one of Joe's brilliant images that perfectly illustrates the technique (you'll recognize many of his photos from magazine covers). And (3) you get the inside story of how that shot was taken, including which equipment he used (lens, f/stop, lighting, accessories, etc.), along with the challenges that type of project brings, and how to set up a shot like that of your own. This book also gives you something more. It inspires. It challenges. It informs. But perhaps most importantly, it will

help you understand photography and the art of making great photos at a level you never thought possible. This book is packed with those "Ah ha!" moments—those clever insights that make it all come together for you. It brings you that wonderful moment when it suddenly all makes sense—that "moment it clicks."

It used to be that the only people that needed professional-looking headshots were actors and models, but now thanks to Facebook, Twitter, LinkedIn, and social media in general, headshots are hot! They've never been more in demand than they are today, and Peter Hurley's unique headshot style and trademark look have made him the most sought-after headshot photographer in the world today. Here's your chance to learn exactly how to create "the look" that everybody's after. This is bankable stuff! If you're not adding headshots to what you offer as a photographer, you're leaving a lot of money on the table. Peter knows first-hand the secrets to not only lighting your headshots like a pro (there's a whole chapter on that alone), but in this book he reveals, in the very same fashion that made him a famous name with photographers everywhere, how he gets authentic expressions and incredibly flattering positioning that will make your clients look better than they ever have in any photo-period! It's all here: he shows you his positioning techniques, his secrets for getting genuine smiles and images that look so natural you won't believe they're posed (but of course, they are), and you'll learn the very same techniques that Peter uses to create amazing headshots for everyone from execs at top Fortune 500 companies, to Silicon Valley startups, to actors and public figures who know all too well how important a great-looking headshot really is. Peter doesn't hold anything back. He reveals all his tricks of the trade, from his trademark lighting look, to how to create good-looking backgrounds on location, to positioning tricks you won't hear anywhere else, and it's all written in Peter's fun, quirky, inspiring style that lets you know, right from the beginning, you can do this, and you can do this big! These are the techniques that Peter has crafted from years in front of the lens, as a model for top brands like Abercrombie & Fitch and Guess, and years behind the lens, giving him an insight few photographers will ever possess, and he's willing to share every bit of it—every trick, every technique, and every nuance—in this book that will pay for itself at your very next shoot. Yes, it's that good.

Following up on the great success of *The Moment It Clicks* and *The Hot Shoe Diaries: Big Light from Small Flashes*, legendary magazine photographer Joe McNally takes us on another memorable ride with *Sketching Light*, another trip into the land of light—but this time running the gamut from small flash to big flash, and everywhere in between. Of course, Joe includes coverage of Nikon Speedlights, but he also covers big flash, as well as "in-between" lights as the Elinchrom Quadra. The exploration of new technology, as well as the explanation of older technology. No matter what equipment Joe uses and

discusses, the most important element of Joe's instruction is that it is straightforward, complete, and honest. No secrets are held back, and the principles he talks about apply generally to the shaping and quality of light, not just to an individual model or brand of flash. He tells readers what works and what doesn't via his let's-see-what-happens approach, he shows how he sets up his shots with plentiful sketches and behind-the-scenes production shots, and he does it all with the intelligence, clarity, and wisdom that can only come from shooting in the field for 30 years for the likes of National Geographic, Time, Life, and Sports Illustrated--not to mention the wit and humor of a clearly warped (if gifted) mind.
