Gyrfalcon - Wikipedia

Although the classic image of a Gyrfalcon is a regal white bird with black spotting, the birds occur in shades of white, gray, and dark brown. In North America, gray birds are more numerous than the other two morphs. Adults are heavily barred on the back, wings, and tail, with spotted underparts.

Gyrfalcon Identification, All About Birds, Cornell Lab of ...

Falco rusticolus This formidable predator, the largest falcon in the world, reigns over barren tundra and desolate coasts in the high Arctic. There it preys mostly on large birds such as ptarmigan and waterfowl, overtaking them in powerful flight.
