In Hacker, Ted Dekker dives deep into Nyah's psyche, recounting her need to avert the upcoming catastrophe while also avoiding capture. Maybe she can even learn to hack into reality and change it with her mind. Hacker is a fast-paced YA novel with a sci-fi feel that loosely ties back into the first book in the Outlaw Chronicles, Eyes Wide Open. It's a good novel, but it didn't hit me with the same emotional power as the other two.

"My name is Nyah and I'm a hacker. I know things most people would never believe. Things that shouldn't exist, but do."

New York Times bestselling author Ted Dekker brings an exotic tale of adventure and creates his most memorable character ever. The story of how I, Julian Carter, and my precious two-year old son, Stephen, left Atlanta Georgia and found ourselves on a white sailboat, tossed about like a cork on a raging sea off of Australia's northern tip in 1963, is harrowing. But it pales in comparison to what happened deep in the jungle where I was taken as a slave by a savage tribe unknown to the world. Some places dwell in darkness so deep that even God seems to stay away. There, my mind was torn in two by the gods of the earth. There, one life ended so another could begin. Some will say I was a fool for making the choices I made. But they would have done the same. They, too, would have embraced death if they knew what I knew, and saw through my eyes. My name is Julian and this is my story. But more, it is the story of my son who was born to change the world. From deep in the impenetrable jungles where New York Times bestselling author Ted Dekker was born and raised, comes OUTLAW, an epic adventure of two worlds that perhaps only he could write. Full of harrowing twists, sweeping violence, and wild love, Outlaw takes us beyond the skin of this world to another unseen.

ONE THING CONNECTS EYES WIDE OPEN, WATER WALKER, AND HACKER—THEY CALL HIM OUTLAW. It all begins with Christy Snow in Eyes Wide Open: seventeen, buried alive in a coffin, and about to die. Is what she's experiencing real? Or is she suffering a delusional breakdown? In Water Walker, Alice Ringwald is a thirteen-year-old orphan suffering from amnesia. She is still adjusting to her new life when suddenly she is kidnapped by a strange man. Finally, in Hacker, skilled computer expert Nyah Parks is using her technical knowledge to get money for her mom's life-saving medical treatment. When Nyah cracks the wrong firewall, it's not just her mother's life that is in danger. Nyah is forced into one last hack that will either save her or kill her. Humming with intensity, The Outlaw Chronicles Trilogy is a raw adrenaline rush from the first page to the last from master of suspense Ted Dekker. .

Some say roll with the punches. Drift with the tide. Nothing can stop the inevitability of change. There was a time when 300 Spartans

disagreed with such mindless thinking and stood in the gap. Now it's time for 3,000 to stand in the gap. Sinner is the story of Marsuvees Black, a force of raw evil who speaks with wicked persuasion that is far more destructive than swords or guns. Beware all who stand in his way. It's also the story of Billy Rediger and Darcy Lange, two unsuspecting survivors of a research project gone bad, who discover that they are perhaps the two most powerful souls in the land. Listen to them or pay a terrible price. And it's the story of Johnny Drake, the one who comes out of the desert and leads the 3,000. Follow him and die. Sinner tells the story of a free land where people who worship as they please and say what they believe are suddenly silenced in the name of tolerance. Most will roll with the punches. Most will drift with the tide. But not all. Not the 3,000.

Alice Snow, a thirteen-year-old orphan, is abducted from her adopted home by a strange man claiming that her real mother is alive, and a frantic FBI manhunt ensues.

In rural Alabama, two couples find themselves in a fight for survival. Running from a maniac bent on killing them, they flee to an old house that's been empty for years, or so they think.

From Chosen to Traitor? After being stretched to their limits, the four heroic young Forest Guard recruits—Johnis, Silvie, Billos, and Darsal—face new dangers on their mission to secure the seven lost Books of History. Celebrated as a hero, Johnis's world is shattered when he learns that his mother may not be dead as presumed but could be living as a slave to the Horde. Throwing caution to the wind, he rushes to her rescue. But this is precisely what the Horde has planned. Now he will face a choice between Silvie, whom he is quickly falling for, and his sworn duty to protect the Forest Dwellers. How can he save those he loves without betraying his own people? In the end, one will be revealed as the Infidel. And nothing will be the same for the remaining Chosen.

A freak storm has spawned three tornadoes that are bearing down on the town of Summerville. Yet under the cover of the storm looms a much more ominous threat: A vindictive killer known as Red who's left a string of victims in his wake and is now bent on exacting his final revenge on the unsuspecting town. But there is an enigma surrounding Red that the FBI is unwilling to admit—closely guarded secrets of something gone terribly wrong beneath the skin of Summerville. Secrets that will destroy far more than one small town. Wendy Davidson is caught in the middle. She's a recovering cult survivor who takes refuge in Summerville on her way to visit her estranged mother. And with her, four strangers, any of whom could be the next victim . . . or the killer.

Living in Los Angeles in the early 1970s, real-estate dealer Stephen Friedman becomes hungry for answers after he discovers a deceased woman's papers that indicate she owned a priceless religious relic, and that she may have been his mother.

Masters of Doom is the amazing true story of the Lennon and McCartney of video games: John Carmack and John Romero. Together, they ruled big business. They transformed popular culture. And they provoked a national controversy. More than anything, they lived a unique and rollicking American Dream, escaping the broken homes of their youth to co-create the most notoriously successful game franchises in

history—Doom and Quake—until the games they made tore them apart. Americans spend more money on video games than on movie tickets. Masters of Doom is the first book to chronicle this industry's greatest story, written by one of the medium's leading observers. David Kushner takes readers inside the rags-to-riches adventure of two rebellious entrepreneurs who came of age to shape a generation. The vivid portrait reveals why their games are so violent and why their immersion in their brilliantly designed fantasy worlds offered them solace. And it shows how they channeled their fury and imagination into products that are a formative influence on our culture, from MTV to the Internet to Columbine. This is a story of friendship and betrayal, commerce and artistry—a powerful and passionate account of what it's like to be young, driven, and wildly creative. "To my taste, the greatest American myth of cosmogenesis features the maladjusted, antisocial, genius teenage boy who, in the insular laboratory of his own bedroom, invents the universe from scratch. Masters of Doom is a particularly inspired rendition. Dave Kushner chronicles the saga of video game virtuosi Carmack and Romero with terrific brio. This is a page-turning, mythopoeic cyber-soap opera about two glamorous geek geniuses—and it should be read while scarfing down pepperoni pizza and swilling Diet Coke, with Queens of the Stone Age cranked up all the way."—Mark Leyner, author of I Smell Esther Williams
