A woman's search to uncover the truth about her mother ignites danger and passion in this novel from #1 New York Times bestselling author Julie Garwood. Daddy's girl Cordelia Kane is devastated when her father has a serious heart attack, and the emotion is only intensified by the confusion she feels when he reveals the shocking truth about her late mother. Desperate to find answers to her questions about the woman who gave birth to her, Cordelia hitches a ride to Sydney, Australia, on the company jet of hotel magnate Aiden Madison, her best friend's brother. Aiden wants to help Cordelia, but threats from her wealthy, high-powered family quickly become dangerous. As sparks fly between them, multiple attempts are made on Cordelia's life-and Aiden realizes he must put a stop to the madness before he loses the thing he values most.

Raise the bar to become the best version of you Most of us set the bar too low in our lives, both personally and professionally. Bob Deutch, a cognitive neuroscientist/anthropologist turned entrepreneur, has spent a lifetime studying people and found that we choose not to pursue our greatest ambitions because we feel we are incapable of reaching them. But he has also found that we are each born with the fundamental abilities to live the full, creative, dynamic lives we dream about. Curiosity, Openness, Sensuality, Paradox, and Self-Story-these are our five inner resources. Through interviews with inspiring people, including Wynton Marsalis and Richard Feynman, and case studies of personalities like Bruce Springsteen and Anna Quindlen, Deutch shows us how to access and use these resources to open our lives to unimagined possibilities.

This book covers the vast majority of Powerstroke Diesel engines on the road, and gives you the full story on their design. Each part of the engine is described and discussed in detail, with full-color photos of every critical component. A full and complete step-by-step engine rebuild is also included.

GSX-R600 (1997-2000)

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto-promising a solution to virtually any handling problem.

A guide to Britain's motorcycle history, giving the history and description of various motorbikes and including the experiences of the present-day owners.

American Motorcyclist magazine, the official journal of the American Motorcyclist Associaton, tells the stories of the people who make motorcycling the sport that it is. It's available monthly to AMA members. Become a part of the largest, most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800-AMA-JOIN.
