Synopsis. Jacques Lacan was one of the most important psychoanalysts ever to have lived. Building upon the work of Freud, he sought to refine Freudian insights with the use of linguistics, arguing that 'the structure of unconscious is like a language'. In this clear, comprehensive primer to the notoriously demanding thinker, Lionel Bailly guides the reader through Lacan's canon, from 'le petit objet a' to 'The Mirror Stage' and beyond.

Jacques Lacan was first of all a psychiatrist, and as a clinician, he was more concerned with what he did not know or understand than what he did. A very good beginners guide in the Lacanian Psychoanalysis. The author was able to define the main concepts of the lacanian saga without losing its essential ambiguities. Being a psychiatrist and psychoanalyst, the author seems free of any kind of servitude's. A must read-even for advanced readers and/or practitioners.

"Lacan was an inventor of concepts and freely ascribes to common words new meanings within his theoretical model - just as would a philosopher, or, for that matter, any inventor. Since then I have read Lionel Bailly's excellent 'Lacan; A Beginners Guide', Darian Leaders 'Introducing Lacan' which is another graphic guide, and Bruce Fink's 'A Clinical Introduction To Lacanian Psychoanalysis'. Returning to 'Lacan for Beginner's' for the second time was much more rewarding given this prior reading.
