Man Against Himself - Wikipedia

Anselm Betty is on an 89-year winning streak of unparalleled success and fortune. If you asked him, he would tell you that he got to be the CEO of not one, but two, wildly successful companies, as well as the founder of the world's third-best city for singles to live in, by following a few simple guidelines: dressing well, reading the classics, relentlessly innovating, and, in general, by being sincere, honest, and forgiving at all times that is, until Simon, his business partner and best friend, stabs him in the eye and turns all his employees against him. With little time left to live, Anselm is forced to watch a new generation of ambitious entrepreneurs take everything from under his feet. He's not ready to concede defeat just yet, however, and even with his head wrapped in bandages, Anselm manages to fight back, come to terms with his mortality, and ultimately find true love.

"Analyzes life as we are living it, and the analysis is truthful and profound."--New York Times Loneliness, boredom, emptiness: These are the complaints that Rollo May encountered over and over from his patients. In response, he probes the hidden layers of personality to reveal the core of man's integration--a basic and inborn sense of value. Man's Search for Himself is an illuminating view of our predicament in an age of overwhelming anxieties and gives guidance on how to choose, judge, and act during such times.

" There is no meaning to life except the meaning man gives his life by the unfolding of his powers. " —Erich Fromm Are we primarily determined by nature or nurture? What are the best ways that people can live productively? In Man for Himself, renowned social philosopher Erich Fromm posits: With the gifts of self-consciousness and imagination, any individual can give his or her own unique answer. This answer is rooted in our human nature, and should correspond to mankind ' s powers of reason and love. Therefore, Fromm reasons, “ living itself is an art. ” In his humanistic concept of man, Fromm describes various character orientations that are to be found in Western culture. For the first time, Fromm analyzes the parallels between economic concepts of market value and how we value others and ourselves—the idea of personality as a commodity. He argues for a return to humanistic ethics, and discusses issues such as the question of conscience, of selfishness and self-love, and of pleasure and happiness. This ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author ' s estate.

Drawing on extensive clinical and epidemiological evidence, as well as personal experience, Thomas Joiner provides the most coherent and persuasive explanation ever given of why and how people overcome life's strongest instinct, self-preservation. He tests his theory against diverse facts about suicide rates among men and women; white and African-American men; anorexics, athletes, prostitutes, and physicians; members of cults, sports fans, and citizens of nations in crisis.

And if he doesn't like the results of the change, he can simply go back in time and talk himself out of making it! But Dan soon finds that there are limits to his powers and forces beyond his control.

This American classic has been corrected from the original manuscripts and indexed, featuring historic photographs and an extensive biographical afterword.

In his private life, as well as in his work and political attitudes, Michel Foucault often stood in contradiction to himself, especially when his expansive ideas collided with the institutions in which he worked. In Francois Caillat's provocative collection of essays and interviews based on his French documentary of the same name, leading contemporary critics and philosophers reframe Foucault's legacy in an effort to build new ways of thinking about his struggle against society's mechanisms of domination, demonstrating how conflict within the self lies at the heart of Foucault's life and work. Includes a foreword written especially for this edition by Paul Rabinow, Professor of Anthropology at the University of California (Berkeley) and an influential writer on the works of Foucault; he is the co-editor of The Essential Foucault. Foucault against Himself features essays and interviews by: Leo Bersani, American Professor Emeritus of French at the University of California (Berkeley) and the author of Homos; Georges Didi-Huberman, French philosopher and art historian; his most recent book is Gerhard Richter: Pictures/Series Arlette Farge, French historian and the author of The Allure of the Archives; Geoffroy de Lagasnerie, French philosopher and the author of La derniere leçon de Michel Foucault.
