The illegal drug trade in China is influenced by factors such as history, location, size, population, and current economic conditions. China has one-fifth of the world's population and a large and expanding economy while opium has played an important role in the country's history since before the First and Second Opium Wars in the mid-19th century. China's large land mass, close proximity to ...

Advice for the families of people who use drugs – NHS - NHS

Problem drug use has a profound impact on all family members. Mothers and fathers, brothers and sisters are caught in the maelstrom that drug problems almost inevitably create. Furthermore, when drugs come into a family, there is the danger that siblings might become involved in problem drug use, thus adding to family problems.

For many drug users, increased drug use can lead to dependency and this condition can lead to many new problems. As drug misuse and dependency increases it can become more difficult to work and maintain a job. This can lead to financial problems as bills, such as mortgages, rent and rates, together with other household bills, cannot be paid.
