Personal data Personal data is any information which could be used on its own or combined with other information from within the police service or public domain to identify a living person. Examples include: a person's name, address, phone number, email address, IP address, photograph or video recording.

Data protection - College of Policing

Data Protection legislation allows organisations to share personal information if it is needed to prevent or detect a crime, or to catch and prosecute a suspect. Organisations are most likely to receive requests like this from the police, but they may also be from other organisations that have a crime prevention or law enforcement function - for example, the Department for Work and Pensions Benefit Fraud Section.

The Data Protection Act 2018 gives you the right to ask if the police holds, or is processing, any personal data about you. This is called the right of access and is commonly known as making a subject access request or SAR. To make a subject access request, visit our Request information about myself or others page.

When can the police disclose information about me? | The Met

Article 10 applies to personal data relating to criminal convictions and offences, or related security measures. In this guidance, we refer to this as criminal offence data. This concept of criminal offence data includes the type of data about criminal allegations, proceedings or convictions that would have been sensitive personal data under the 1998 Act.
