Containing cases decided by the Privy Council, federal, provincial, shariat courts, and high courts of various Pakistani jurisdictions.

This book is the third volume of 'Judges & Generals in Pakistan' by Inam R Sehri which mainly covers period from 2008-10 of contemporary history of that country. The book is a record of critical evaluation on Pakistan's day to day deliberations from its army and superior judiciary in comparison with mega-corruption scandals of Pakistan's political elite. No misleading intelligence story, no distracting investigative report and no concocted interview; everything is trustworthy - supported by exact references of source. No fiction in this book but simple narration of facts. Author's previous two volumes on the subject have already been placed as reference books and its excerpts are quoted in higher courts in Pakistan.

Suicide bombing has become a weapon of choice among terrorist groups because of its lethality and ability to cause mayhem and fear. But who carries out these acts, and what motivates them? By undertaking analysis of the information in the most comprehensive suicide terrorism database in the world, Life as a Weapon seeks to question and in turn undermine the common perception that the psychopathology of suicide bombers and their religious beliefs are the principal causes. Instead, the book presents a cocktail of motivations that drive suicide bombers, and explains how their actions achieve multiple purposes - community approval, political success, liberation of the homeland, personal redemption or honour, refusal to accept subjugation, revenge, anxiety, defiance. Since the configuration of these driving factors is also specifically related to the circumstances of political conflict in each different country, it is only through gaining understanding and knowledge of these conditions that appropriate policies and responses can be developed that will protect the public and counter the scourge of suicide bombings. Life as a Weapon is a pivotal text in the discussion surrounding suicide bombings, and as such it is of relevance to undergraduate students, postgraduates, and researchers working in areas such as Security Studies, Middle Eastern Studies, Terrorism, Criminology and Political Science.
