Scania DC16 Manuals | ManualsLib

This operator’s manual describes the operation and maintenance of Scania DC12 and DI12 Industrial Engines. The instructions apply to engines in programme 96 from engine serial number 5 997 001 onwards.

IMPORTANT INFORMATION SERIOUS RISK OF INJURY. - Scania Group

Scania's XPI high-pressure fuel injection system is a joint venture with Cummins, which allows EGR-equipped engines to meet Euro-5 emissions regulations without using AdBlue. Read the Commercial Motor feature here or download the PDF files by clicking on the following links: Part 1 (PDF file) Part 2 (PDF file)

The Scania XPI fuel injection system | Commercial Motor

Scania introduces a range of high-tech gearboxes. New range of automated manual transmission (AMT) gearboxes, designed for drivability and sustainability. Gearboxes with a wider spread, one percent less fuel consumption and less noise. Lighter, improved gear-shifting, handles up to 3,700 Nm of torque.

Scania's new V8 range. There's a 770 flagship plus a 660 ...

This Operator’s Manual describes the handling and maintenance of Scania DI12 Marine Engines with EMS S6/PDE injection systems. The four-stroke, 6-cylinder in-line diesel engines have direct injection and are liquid cooled. The engines are turbocharged and equipped with a charge air cooler which is coolant-cooled, see page 12.

IMPORTANT INFORMATION - Scania Group

Scania has refreshed its 16-litre V8 engine range with four new models, including what it says is the industry’s most powerful series-produced engine, and 40hp larger than previously, at 770hp (759bhp). It produces that power at 1,800rpm, and peak 3,700Nm of torque at 1,000-1,450rpm.

New Scania V8 engines include industry-topping 770hp model

This Operator’s Manual describes the handling and maintenance of Scania DC9 Industrial Engines with EMS S6/PDE injection systems. The engines are of direct-injection, liquid-cooled, four-stroke, 5-cylinder in-line diesel type. These engines have turbochargers and charge air coolers; see page 14.
