The definitive history of photography book, *Seizing the Light: A Social & Aesthetic History of Photography* delivers the fascinating story of how photography as an art form came into being, and its continued development, maturity, and transformation. Covering the major events, practitioners, works, and social effects of photographic practice, Robert Hirsch provides a concise and discerning chronological account of Western photography. This fundamental starting place shows the diversity of makers, inventors, issues, and applications, exploring the artistic, critical, and social aspects of the creative process. The third edition includes up-to-date information about contemporary photographers like Cindy Sherman and Yang Yongliang, and comprehensive coverage of the digital revolution, including the rise of mobile photography, the citizen as journalist, and the role of social media. Highly illustrated with full-color images and contributions from hundreds of artists around the world, *Seizing the Light* serves as a gateway to the history of photography. Written in an accessible style, it is perfect for students newly engaging with the practice of photography and for experienced photographers wanting to contextualize their own work.

2 Baruch is a Jewish pseudepigraphon from the late first or early second century CE. It is comprised of an apocalypse (2 Baruch 1-77) and an epistle (2 Baruch 78-87). Gurtner provides the first publication of the Syriac of both the apocalypse and epistle with a fresh English translation on the opposite page. Also present in parallel form are the few places where Greek and Latin texts of the book.

Written in an accessible style, it is perfect for students newly engaging with the practice of photography and for experienced photographers wanting to contextualize their own work.

Encyclopedic in its coverage, this one-of-a-kind reference is ideal for students, scholars, and others who need reliable, up-to-date information on folk and fairy tales, past and present.

- Provides encyclopedic coverage of folktales and fairy tales from around the globe
- Covers not only the history of the fairy tale, but also topics of contemporary importance such as the fairy tale in manga, television, pop music, and music videos
- Brings together the study of geography, culture, history, and anthropology
- Revises and expands an award-winning work to now include a full volume of selected tales and texts

Since 1999, the EU has adopted legislation harmonizing many areas of immigration law, in particular rules on borders, visas, legal migration, and irregular migration. The much-enlarged and fully updated second edition of this book contains the text of and detailed commentary upon every significant measure in this field proposed or adopted up until 1 September 2011. It includes commentary on the EU visa code, the Schengen Borders Code, the Frontex Regulation, the Returns Directive, the Directives on family reunion, long-term residents and single permits for migrant workers, and many more besides. This is the essential guide for any lawyers, academics, civil servants, NGOs and students interested in this area of law.

"Anyone who has studied Paul knows that probably the most complex problem he develops is his view of the law and its purpose. The beauty of Raisanen's work is that he recognizes and respects this complexity without himself becoming too dense to understand. Raisanen finds that Paul's radicalized, negative criticism of the law is peculiar to him, unparalleled in the NT and without precedent in Jewish thought. With careful, patient examination of various contexts, Raisanen leads his readers to see that Paul has an oscillating, even inconsistent view of the law. . . . This book is well-written in clear, readable English. It is an important book, recommended to any serious student of Paul. Its strength is in Raisanen's willingness to abandon preconceptions of what Paul's view on the law should be according to some consistent plan and in allowing Paul to speak for himself." -- Mary Ann Getty in *The Catholic Biblical Quarterly*, 1985, No. 47

A Doody's Core Title Superbly illustrated, this core textbook reinforces an understanding of basic neuroanatomical structures by
