This combination title is the ideal learning solutions for accounting courses covering both financial and managerial accounting. The fourth edition of Financial Accounting: The Impact on Decision Makers holds true to the original vision of teaching accounting from both the preparer and user perspective, but with an expanded focus on showing students a Roadmap to Success. To lead students to a full understanding of the impact of financial statements on business decision-making, the authors use the financial statements from Winnebago Industries throughout. Relying on the text's trademark innovative pedagogy, instructors can prepare business majors and accounting majors alike for future business success. Managerial Accounting, 2e features a four-step decision-making model throughout, this text is unique in its first-person exploratory approach. It conveys a true management perspective-offering coverage of contemporary topics such as ABM, the value chain, and balanced scorecard

FINANCIAL ACCOUNTING: THE IMPACT ON DECISION MAKERS, Ninth Edition, is packed with decades of academic and real-world accounting experience. This text provides the appropriate blend of academic rigor with step-by-step learning and decision-making models that reach today's students and equip them with the skills they need to be effective decision makers and future business leaders. Instead of an abstract approach to accounting, FINANCIAL ACCOUNTING: THE IMPACT ON DECISION MAKERS takes students through recognizable focus companies and their specific financial data and business strategies, imparting students with real-life experience and a model to hone the skills necessary to making important decisions. This edition features three key models that provide students with a more structured approach to understanding financial data and how it is used to make sound business decisions. The Transaction Analysis Model helps students see the effects an economic event has on the accounting equation and financial statements. The Financial Decision Framework focuses on ratio analysis and financial decisions, and the Ethical Decision Model helps students apply ethical judgment when applying accounting principles. Principles of External Auditing has become established as one of the leading textbooks for students studying auditing. Striking a careful balance between theory and practice, the book describes and explains, in non-technical language, the nature of the audit function and the principles of the audit process. The book covers international auditing and accounting standards and relevant statute and case law. It explains the fundamental concepts of auditing and takes the reader through the various stages of the audit process. It also discusses topical aspects of auditing such as legal liability, audit risk, quality control, and the impact of information technology. Brenda Porter is currently visiting Professor at Exeter University and Chulalongkorn University, Bangkok.

Willard J. Graham (1897-1966) was an important contributor to both accounting thought and education and he pioneered life-long education for executive business that is still emulated today. This volume collects 25 of his key writings which shed light on his contributions to management accounting and business education as well as the accounting profession.
