Structured Representation of Knowledge.  
Structural knowledge is the knowledge of how concepts within a domain are interrelated (Diekhoff, 1983). If schémas are

# File Type PDF Structural Knowledge Techniques For

defined by their interrelationships to other schemas, then explicit awareness of those interrelationships and the ability to explicate those relationships is essential for higher order, procedural knowledge. It is not enough to know that. In order to know how, you must know why. Structural knowledge provides the conceptual bases for why; it describes how the declarative ...
