printed instructions to guide you through the changes. Office 2008 for Macintosh: The Missing Manual gives you the friendly, thorough introduction you need, whether you're a beginner who can't do more than point and click, or a power user who's ready to tackle a few advanced techniques. To cover Word, Excel, PowerPoint and Entourage, this guide gives you four superb books in one -- a separate section each for program! You can manage your day and create professional-looking documents, spreadsheets, and presentations in no time. Office 2008 has been redesigned so that the windows, toolbars, and icons blend in better with your other Mac applications. But there are still plenty of oddities. That's why this Missing Manual isn't shy about pointing out which features are gems in the rough -- and which are duds. With it, you'll learn how to:

- Navigate the new user interface with its bigger and more graphic toolbars
- Use Word, Excel, PowerPoint, and Entourage separately or together
- Keep track of appointments and manage daily priorities with the My Day feature
- Create newsletters, flyers, brochures, and more with Word's Publishing Layout View
- Build financial documents like budgets and invoices with Excel's Ledger Sheets
- Get quick access to all document templates and graphics with the Elements Gallery
- Organize all of your Office projects using Entourage's Project Center
- Scan or import digital camera images directly into
