Anatomica International Anatomical Terminology
Terminologia Anatomica (TA) is the international
standard on human anatomic terminology. It was
developed by the Federative Committee on
Anatomical Terminology (FCAT) and the International
Federation of Associations of Anatomists (IFAA) and
was released in 1998. It supersedes the previous
standard, Nomina Anatomica.

TA2 Viewer - The Open Anatomy Project

The Federative International Committee for Anatomical Terminology (FICAT) is a group of experts who review, analyze and discuss the terms of the morphological structures of the human body. It was created by the International Federation of Associations of Anatomists (IFAA), and was originally known as the Federative Committee on Anatomical Terminology (FCAT).

Federative International Committee on Anatomical Terminology

The purpose of FIPAT is to maintain the IFAA Terminologies (the international standard human anatomical nomenclature), and to increase the use and usefulness of the terminologies.

Anatomical Terminology (FIPAT) | IFAA

Terminologia Anatomica (TA), (tĕr-mĕ-nō-lōj'ĕ-ah ah-nah-tōm'ĕ-kah), A system of anatomic nomenclature, consisting of about 7500 terms, devised and approved by the International Federation of Associations of Anatomists (IFAA) and promulgated in August 1997 at São Paulo, Brazil. Since its foundation in 1903 the IFAA has held periodic conventions for the standardization of anatomic concepts and terminology.
