A masterful introduction to the actor's craft presents a series of rigorous but flexible exercises, based on the Meisner Technique of acting, designed to help actors deal with a wide variety of performance challenges. Original. 15,000 first printing.

William Esper, one of the leading acting teachers of our time, explains and extends Sanford Meisner's legendary technique, offering a clear, concrete, step-by-step approach to becoming a truly creative actor. Esper worked closely with Meisner for seventeen years and has spent decades developing his famous program for actor's training. The result is a rigorous system of exercises that builds a solid foundation of acting skills from the ground up, and that is flexible enough to be applied to any challenge an actor faces, from soap operas to Shakespeare. Co-writer Damon DiMarco, a former student of Esper's, spent over a year observing his mentor teaching first-year acting students. In this book he recreates that experience for us, allowing us to see how the progression of exercises works in practice. The Actor's Art and Craft vividly demonstrates that good training does not constrain actors' instincts—it frees them to create characters with truthful and compelling inner lives.

acting teachers of our time, takes us through his step-by-step approach to the central challenge of advanced acting work: creating and playing a character. Esper's first book, *The Actor's Art and Craft*, earned praise for describing the basics taught in his famous first-year acting class. *The Actor's Guide to Creating a Character* continues the journey. In these pages, co-author Damon DiMarco vividly re-creates Esper's second-year course, again through the experiences of a fictional class. Esper's training builds on Sanford Meisner's legendary exercises, a world-renowned technique that Esper further developed through his long association with Meisner and the decades he has spent training a host of distinguished actors. His approach is flexible enough to apply to any role, helping actors to create characters with truthful and compelling inner lives.

the behavior of state and non-state actors.

Sanford Meisner was one of the best known and beloved teachers of acting in the country. This book follows one of his acting classes for fifteen months, beginning with the most rudimentary exercises and ending with affecting and polished scenes from contemporary American plays. Written in collaboration with Dennis Longwell, it is essential reading for beginning and professional actors alike. Throughout these pages Meisner is a delight—always empathizing with his students and urging them onward, provoking emotion, laughter, and growing technical mastery from his charges. With an introduction by Sydney Pollack, director of *Out of Africa* and *Tootsie*, who worked with Meisner for five years. "This book should be read by anyone who wants to act or even appreciate what acting involves. Like Meisner's way of teaching, it is the straight goods."—Arthur Miller "If there is a key to good acting, this one is it, above all others. Actors, young and not so young, will find inspiration and excitement in this book."—Gregory Peck

This guide for actors and directors develops a valid method for training performers to act from their core--whether they are cold reading, auditioning, or performing for film or television. This book teaches actors how to achieve and respond to believable and honest emotions before the camera, and it maintains that the key to a successful performance lies in how the actors relate to one another and to the circumstances. Exercises, including script examples, throughout the book give readers an easy resource for practicing the principles outlined. The Art of Film Acting applies a classic stage acting method (Stanislavsky) to the more intimate medium of performing before a camera, teaching readers to experience an emotion rather than to indicate it.
