Consciousness, António R. Damásio

There have been many ambitious and important books on the problem of consciousness in the past few years.

None has quite the philosophical sophistication and neurophysical knowledge of this one.

The Feeling of What Happens: Body and Emotion in the ...

The publication of this book is an event in the making. All over the world scientists, psychologists, and philosophers are waiting to read Antonio Damasio's new theory of the nature of consciousness and the construction of the self. A renowned and revered scientist and clinician, Damasio has spent decades following amnesiacs down hospital corridors, waiting for comatose patients to awaken, and ...

change in the chemical profile of your internal milieu" brought about by factors as diverse as your state of health, diet, weather, hormonal cycle, how much or how little you exercised that day, or even how much you had been worrying about a certain matter.

The Feeling of What Happens - Rutgers University

Developed in his (1999) book, *The Feeling of What Happens*, Antonio Damasio's three layered theory of consciousness is based on a hierarchy of stages, with each stage building upon the last. The most basic representation of the organism is referred to as the Protoself, next is Core Consciousness, and finally, Extended Consciousness. Damasio, who is an internationally recognized leader in ...
