Winner of the 2012 Anisfield-Wolf Book Award for Nonfiction A revelatory look at why we dehumanize each other, with stunning examples from world history as well as today's headlines "Brute." "Cockroach." "Lice." "Vermin." "Dog." "Beast." These and other monikers are constantly in use to refer to other humans—for political, religious, ethnic, or sexist reasons. Human beings have a tendency to regard members of their own kind as less than human. This tendency has made atrocities like the Holocaust, the genocide in Rwanda, and the slave trade possible, and yet we still find it in phenomena such as xenophobia, homophobia, military propaganda, and racism. Less Than Human draws on a rich mix of history, psychology, biology, anthropology and philosophy to document the pervasiveness of dehumanization, describe its forms, and explain why we so often resort to it. David Livingstone Smith posits that this behavior is rooted in human nature, but gives us hope in also stating that biological traits are malleable, showing us that change is possible. Less Than Human is a chilling indictment of our nature, and is as timely as it is relevant.

Rick Shenkman reveals the hidden biases at work in all of us when we enter the voting booth. Drawing on cutting-edge research in neuroscience, evolutionary psychology, and behavioral psychology, he explains that evolution has left us with a brain wired for the Stone Age. While these ancient instincts often work to our advantage in our personal lives, in politics they usually don't. Modern cues set off ancient instinctive responses that prompt us to behave in ways contrary to the good governance of our nation. Shenkman illuminates not only the curious habits of the American voter today but also the ways in which voter biases have shaped American political history from the shark attacks that got Woodrow Wilson elected to the people who still defend Richard Nixon against the Watergate charges. In so doing, Shenkman probes the depths of the human mind to reveal what we must do to fix our floundering democracy.

An eyewitness account of Donald Trump's clown car of lieutenants and lackeys who have polluted the corridors of power with their unprecedented awfulness. Two of Washington's most meddlesome reporters take readers on a deep dive into the murky underworld of President Trump's Washington, dishing the hilarious and frightening dirt on the charlatans, conspiracy theorists, ideologues, and run-of-the-mill con artists who have infected the highest echelons of American political power. For the past three years, reporting from the White House, the Trump hotel, and other dens of intrigue and influence, Lachlan Markay and Asawin Suebsaeng have revealed the sordid shenanigans of a rogue's gallery of Trumpworld incompetents and improbable A-listers -- earning them angry denunciations (or at least some vexed side-eye) from Trumpists such as the actor Jon Voight and Trump's former campaign czar and renowned obfuscator Corey Lewandowski as well as requisite threats of physical violence and ruin. Sinking in the Swamp will similarly pull no punches. Everyone from assorted Trump family members to Stephen Miller, Sean Hannity, and Diamond & Silk to Trumpworld's even more obscure accomplices will be plumbed, prodded, and exposed for their roles in the most shambolic moment in modern American political history. When they go low, Swin and Lachlan are right there with them, recorders running and notebooks at the ready. Sinking in the Swamp is an uncompromising account of the financial and moral degradation of our capital, told with righteous indignation and through the lens of key power players and foot soldiers whose own antics have often escaped the notice of the overworked press corps. As the 2020 election approaches, this page-turning, letting-it-all-hang-out narrative shows how the nation got to this nadir, tracing the story back to years before Trump's improbable run for the White House and cataloguing the stomach-turning moments that followed.

In Raising Trump, Ivana Trump reflects on her extraordinary life and the raising of her three children—Donald Jr., Eric, and Ivanka—and recounts the lessons she taught her children as they were growing up. As her former husband takes his place as the 45th President of the United States, his children have also been thrust into the media spotlight—but it is Ivana who raised them and proudly instilled in them what she believes to be the most important life lessons: loyalty, honesty, integrity, and drive. Raising Trump is a non-partisan, non-political book about motherhood, strength, and resilience. Though Ivana writes about her childhood in communist Czechoslovakia, her escape from the regime and relocation to New York, her whirlwind romance, and her great success as a businesswoman, the focus of the book is devoted to Ivana's raising of her children. Donald Trump Jr., Eric Trump, and Ivanka Trump will all contribute their own memories to the book. "Every day, people ask me how I raised such great kids. They are truly amazed when I tell them that there was no magic to their upbringing. I was a tough and loving mother who taught them the value of a dollar, not to lie, cheat, or steal, respect for others, and other life lessons that I'll share now in Raising Trump, along with unfiltered personal stories about Don, Eric, and Ivanka from their early childhood to becoming the 'first sons and daughter.'" —Ivana Trump

Trump Charitable Fund, a donor advised fund that will make grants to organizations that empower and educate women and girls.* "This is a chatty step-by-step guide to living a happy life and getting ahead in a career." —USA Today "The advice is spot-on for everyone, not just women." —Tony Hsieh, CEO of Zappos.com and author of Delivering Happiness I believe that when it comes to women and work, there isn't one right answer. The only person who can create a life you'll love is you. Our grandmothers fought for the right to work. Our mothers fought for the choice to be in an office or to stay at home. Our generation is the first to fully embrace and celebrate the fact that our lives are multidimensional. Thanks to the women who came before us and paved the way, we can create the lives we want to lead—which look different for each of us. I've been fortunate to be able to build my career around my passions, from real estate to fashion. But my professional titles only begin to describe who I am and what I value. I have been an executive and an entrepreneur, but also—and just as importantly—a wife, mother, daughter, and friend. To me, "work" encompasses my efforts to succeed in all of these areas. After appearing on The Apprentice years ago and receiving a flood of letters from young women asking for guidance, I realized the need for more female leaders to speak out publicly in order to change the way society thinks and talks about "women who work." So I created a forum to do just that. This book evolves the conversation that started on IvankaTrump.com, where so many incredible women (and men!) have shared their experiences, advice, ambitions, and passions.
