Valerian (also referred to as 'Valerian and Laureline') is a space opera comic book created by the writer and artist team of Pierre Christin and Jean-Claude Mezières. The inaugural episode was serialized starting in the November, 1967 issue of the French magazine 'Pilote' and went on to become one of the best-known, and most influential, Eurocomics of the last 50 years.

Valerian and Laureline take a break from adventuring and go on a cruise, but Valerian feels uncomfortable among the idle and the powerful. He's not bored for long, though, because when a quartet of mercenaries board the cruise ship to kidnap the son of the Caliph of Iksaladam, they end up taking Laureline as well. With the almighty Caliph offering a massive reward for his son's return, Valerian's quest to rescue his girl is suddenly hindered by every bounty hunter in the galaxy...

Running away with the unhappy heir to the galaxy's biggest fortune, even if it's because he wants it, is bound to cause some problems. On the lam with the Caliphette of Iksaladam, Valerian and Laureline are relentlessly pursued by the Quatuor Mortis, who are still after the enormous reward offered for the child's safe return. Stranded among the Asteroids of Shimballil, they must evade the hunters, recover their ship, dodge profiteers and traitors ... and decide what to do with the little brat!

Broke, without a job, their ship almost a scrap heap, Valerian and Laureline are stuck on Rubanis, unable to pay for repairs. So when a trio of old acquaintances introduces them to the head of the local police, who is looking for independent agents for a risky – but well-paid – mission, they accept readily enough. But Rubanis is the most corrupt planet in the entire galaxy. How are they to find out who really holds the reins of power there?

The (false?) gods of Hysis are once again interfering with Human history. Tired of their lower status among their peers, the trinity in charge of planet Earth opens communications with megacorporation Vivaxis at the end of the 20th century – an occurrence Valerian and Laureline's allies report to the two ex-agents. But to what end did the Hysians initiate such a contact? And who is the mysterious Sat who, from the depths of Point Central, also endeavours to meddle with Human affairs?

Fourth volume of the Valerian Complete Collection: return to Earth, and some great upheavals in the characters' lives, are on the menu for the best titles of the series.

Valerian and Laureline are exploring Syrte, capital planet of a system of 1,000 worlds. Their mission is to discover whether the Syrtians could present a danger to Earth. What they find is a decaying empire led by decadent aristocrats, a population ripe for revolution, and a mysterious caste of masked wise men who discreetly pull the strings from hidden fortresses. Swept up by the winds of history, the agents of Earth will have to choose a side...

Galaxy, capital of the Terran Empire in the 28th century. Valerian and Laureline are agents who protect mankind from rogue time travellers. Now they are sent to New York in 1986 to intercept Galaxy's worst megalomaniac, Xombul—except that in 1986, the world is in ruins and New York is about to be swallowed by the ocean. The two agents must navigate the shifting waters of the past to make sure that the future will exist.

Valerian and Laureline, no longer members of any organisation, are down to doing space deliveries. With Galaxy gone and money getting scarce, their aging spaceship is becoming a hazard, which is pushing Valerian into accepting questionable cargo. After a somewhat rough landing, our two ex-agents, on their way to deliver their goods, meet some individuals with very surprising gifts who claim to be itinerant artists. But is that really all they are?

Exploring Syrte, the capital planet of a system of one thousand worlds, agents Valerian and Laureline must decide whether this decaying empire poses any danger to Earth.

The last volume of this magnificent collection, which includes the final three books of the main saga, bringing to a close the adventures of Valerian, Laureline and the vanished Earth in style.
